Hero Voicer X64

Hero Voicer is an interesting and easy to use piece of software which aims to provide you with the means of speaking in your favorite character's voice when chatting with friends online or when playing games. Keep in mind that you need to have your microphone connected to the computer, otherwise you will not be able to morph your voice into the sounds featured by Hero Voicer. Intuitive and approachable user interface The main window of the application is fairly clean and straight-forward, making it very easy to handle, even for those with less computer experience. You can browse through the available voices by scrolling up and down the main screen, testing the ones that seem interesting to you. Find your voice and start using it When you find a voice you like, you can press on the microphone icon to begin using it. Optionally, you can adjust its characteristics, for instance 'Pitch' or 'Echo', so it can better suit your needs. For example, you can speak in a 'Radio' voice, or you can use 'Pony', the cartoon character. Moreover, Hero Voicer allows you to play various 'Background Sounds', such as 'Forest', 'Hell', 'Rain', 'City', 'Military March', 'Romantic', 'Drums', 'Fireworks', 'Storm' and several others, which mimic real noises, yet your are able to adjust their volume, thus preventing them from covering your voice. Aside from the occasional freezes which visibly indicate that Hero Voicer is still under development, the utility proves quite handy for multiple purposes, enabling you to change your voice in a variety of ways with just a few button presses. Fun digital voice changer In conclusion, Hero Voicer is a user-friendly and entertaining program whose main purpose is to assist you in altering your voice, so you can sound like your favorite character, be it from a game, a cartoon or a movie. If you are adventurous, unique and looking for fun, Hero Voicer may be the right tool for you. Amazing. I had a original Windows 8 laptop that would not even open any, and my son bought me this laptop and the install went perfectly. I love it! The interface is so easy to use. I'll keep all my files because I'm like you. I can remember me lost a year ago. The only reason I would like to change it is to be able to use Unity. Is it possible? Windows 8 has a certain skill of refusing to
