UFSx License # : 5000001 -- UFSx Product #: 05000100 -- UFSx Serial #: 05050000 I have two boxes (one as server and other as client.). UFSx Device: UFS3 SarasSoft, USB S/N: 78890. UFS\_USB V2.8 (c) SarasSoft 2007. -- UFSx . When i use WU (West Utopia) mode server box say Request. Not allowed by OS\_vx.c. WU mode is not OS\_vx.c supported, the library has not a system call for it. It was probably removed before UFSx version 2.2. You can use UFS\_DFU instead. This is a 'hello world' test in order to see if it works ok : When i connect the server box with a client then it should display on the client box the word : client: wu supported. Here is the screenshot of the error : I have no idea what may be the cause of this error. Any suggestions? Here the drivers (built in ldr ) if needed : Hope this help.
